

Dear Supplier,

Thank you for your interest in Phase 3 of our ICT Framework. We have now released the ITT documents.

**Please note:** Tender notices do not immediately show up on [Find a Tender](#). Sometimes they take a little while to work through the system.

Here is a list and description of the documents provided:

- \* The Selection Questionnaire is the same for Lot 10 and Lot 11. If you are applying for both lots, you only need to fill it in once. If you are already a panel member on another lot on the enFrame ICT Framework, you only need to complete and sign the 2 declarations in the Selection Questionnaire and update any

information that has changed. Full instructions on the documents you need to complete are available in Volume 1: Instruction and Guidance for tenderers.

The supplier webinars have already been held, but the slide presentation and recording are available. See document list above.
